

Research Grant Awarded to Wood

We're very excited to announce that Tim Wood of the Greenwood Genetic Center has received a \$54,774 Million Dollar Bike Ride research grant award for his project: Expanding the Breadth of Metabolite Analysis for Snyder Robinson Syndrome. We'd like to congratulate Tim, and thank him and the entire Greenwood research team for helping us find a treatment for SRS! We'd also like to thank the Penn Medicine Orphan Disease Center, Team SRS! and all of our generous donors for making this possible!
